Friday, 20 March 2020

Dear parents/Carers.

We will be using 'Google Classroom' for KS2 pupils during school closure to pupils. This is an online learning platform where teachers will upload work for your child to complete weekly.

Children are required to complete these tasks as well as the hard copies that have been sent home already with your child, or coming home today with your child.

Those who are able to can collect from the office today. For those who have not yet received their packs are self-isolating, we will be posting these today.

Please see the links below for how to become familiar with this platform.
